

ESSENTIAL FATTY ACID (EFA) CREAM

A nourishing and renewing hand and body cream made with **Borage Oil** and **Evening Primrose Oil**, both rich in gamma-linolenic acid. **Jojoba Wax Flakes** add body and increase the viscosity of the cream.

INCI NAME	TRADE NAME	WT. %
Phase A		
Deionized Water		40.00
Dimethicone Copolyol Phosphate	Pecosil WDS-2002 ¹	3.00
Carbomer 934 (2% Aqueous)		25.00
Butylene Glycol		5.00
Triethanolamine (99%)		1.00
Phase B		
Borago Officinalis Oil	Borage Oil ²	3.00
Oenothera Biennis (Evening Primrose) Oil	Evening Primrose Oil ²	3.00
Octyldodecyl Behenate	Pelemol 2022 ¹	15.00
Cetearyl Alcohol		2.00
Hydrogenated Jojoba Oil	Jojoba Wax Flakes ²	1.00
Glyceryl Stearate		2.00
Phase C		
Propylene Glycol (and) Diazolidinyl Urea (and) Methylparaben (and) Propylparaben	Germaben II ³	<u>q.s.</u> 100.00

Procedure

Heat Phase A to 70-75°C with slow sweep agitation. Heat Phase B to 70-75°C with slow sweep agitation. Under a homogenizer, add Phase B to Phase A. When AB is uniform, begin cooling and slow sweep agitation. When AB reaches 45°C, add Phase C to AB and continue cooling and slow sweep agitation until 35°C is reached.
